

QT Pulse

School Health Longitudinal Survey

Baseline Report

Example Public School

21 June

Term 2 2024

Example Public School

The QT Pulse: School Health Longitudinal Survey is a tool for schools to reflect on school climate for the purposes of creating positive change.

Your Baseline Report is designed to:

- Describe your **current school climate** as a snapshot of **conditions** that **can change** across time
- Start inquiry of **trends across time** - we recommend **collecting data each term** to unlock its true value

Information within this report should be treated as sensitive. This information should never be used for performance management. Only data from completed survey responses are included in this report.

This free QT Pulse report contains graphs for six measures, which are made up of one or more survey questions. A sample question is provided to give an indication of the measure.

Measure	Example question
Effective Practice	I am a successful teacher
Burnout	I feel emotionally drained from my work
Connectedness	I feel like I belong at this school
Leadership Trust	I trust senior executive members in my school to keep their word
Shared Vision	Teachers share the same ambitions and vision for the school.
Student Behaviour	The level of student behaviour in this school interferes with my teaching.

Our premium QT Pulse report contains graphs for 16 measures. You can see an example premium report [here](#).

Interpreting the data

In this report you will see two types of graphs.

The first graph compares your school to an “average school” that is representative of a larger data set.

The second graph shows how your school’s responses are distributed across Low, Mid, and High categories.

Example graphs

Data collected for this report

Time	Responses
2024 Term 2	48

Your School vs Average School

	Your School	Average School
ICSEA	914	991
Teaching Staff	15	40
Non-Teaching Staff	7	18
Students	278	556

○ Average School ● Your School

Effective Practice

Burnout

(Lower is better)

Connectedness

Leadership Trust

Shared Vision

Student Behaviour

(Lower is better)

Low (0 to 5) Mid (>5 to 8) High (>8 to 10)
