QT Pulse

School Health Longitudinal Survey

Baseline Report

Example Public School

21 March

Term 1 2023

QT Academy

Example Public School

The QT Pulse: School Health Longitudinal Survey is a tool for schools to reflect on school climate for the purposes of creating positive change.

Your Baseline Report is designed to:

- Describe your **current school climate** as a snapshot of **conditions** that **can change** across time
- Start inquiry of **trends across time** - we recommend **collecting data each term** to unlock its true value

Information within this report should be treated as sensitive and should never be used for performance management.

Data collected for this report

Time	Responses
2023 Term 1	48

Your School vs Average School

	Your School	Average School
ICSEA	914	991
Teaching Staff	15	40
Non-Teaching Staff	7	18
Students	278	556

Interpreting the data

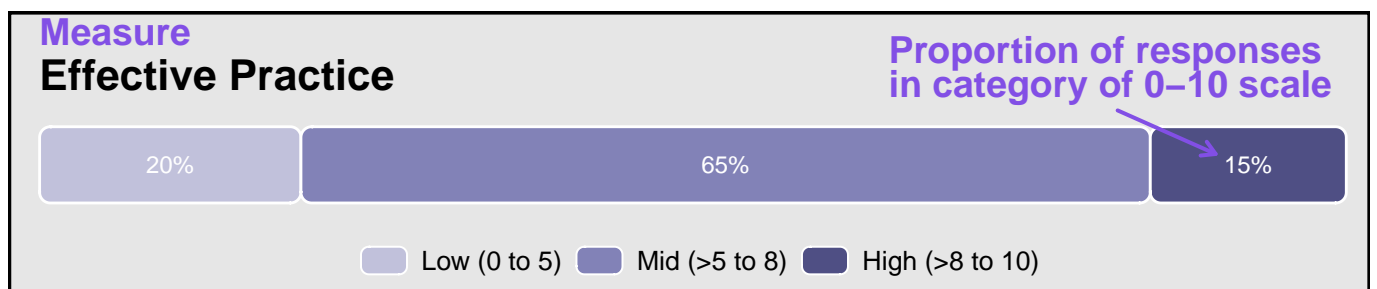

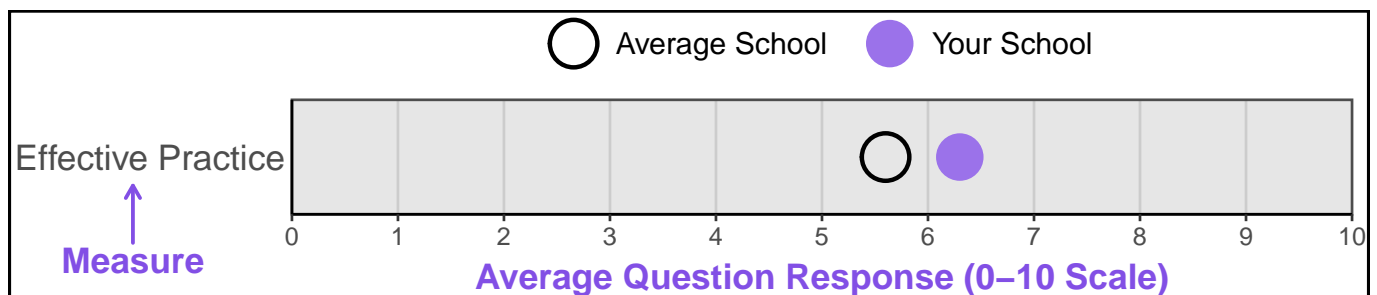

Measures are presented in three groups: Personal, Collective, and Students. A sample question is provided to give an indication of the measure. All items for these measures can be found [here](#).

In this report you will see two types of graphs in each section.

The first graph compares your school to an “average school” that is representative of a larger data set.

The second graph shows how your school’s responses are distributed across Low, Mid, and High categories.

Example graphs

Personal

Personal refers to the way teachers perceive their own practice, connectedness to the school and well-being. Measures are made up of one or more survey questions:

Measure	Example question
Effective Practice	I am a successful teacher
Teacher Responsibility	I feel that I have been successful in providing the kind of education that I would like to provide for students.
Connectedness	I feel like I belong at this school
Burnout	I feel emotionally drained from my work

Effective Practice

Teacher Responsibility

Connectedness

Burnout

(Lower is better)

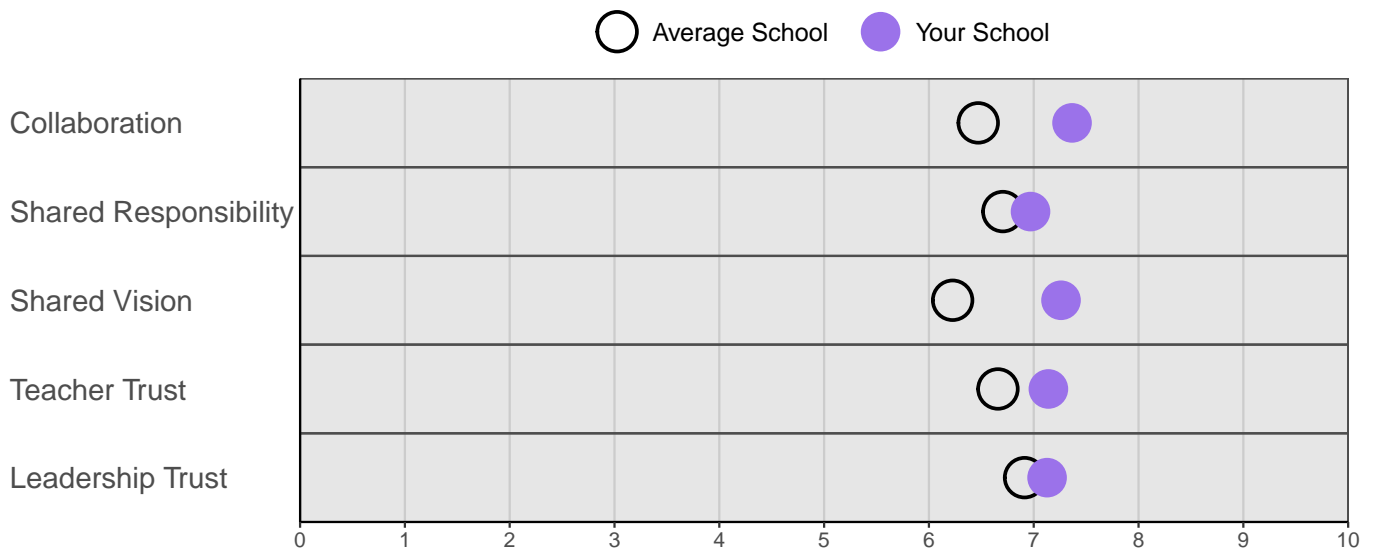

Low (0 to 5) Mid (>5 to 8) High (>8 to 10)

Collective

Collective captures the way teachers feel about the school environment they are working in. Measures are made up of one or more survey questions:

Measure	Example question
Collaboration	There is collaborative practice at this school
Shared Responsibility	How many teachers in this school meet with other teachers to collaboratively plan?
Shared Vision	Teachers share the same ambitions and vision for the school.
Teacher Trust	I trust the teachers in this school
Leadership Trust	I trust senior executive members in my school to keep their word

Collaboration

Shared Responsibility

Shared Vision

Teacher Trust

Leadership Trust

Low (0 to 5) Mid (>5 to 8) High (>8 to 10)

Students

Students refers to how the school is focusing on students and the interactions between teachers and students. Measures are made up of one or more survey questions:

Measure	Example question
Excellence and Equity	We promote personalised learning to fulfil the individual capabilities and needs of learners
Student Trust	I have a good relationship with my students
Parent Trust	How many of your students' parents do their best to help their children learn?
Confidence and Creativity	Students develop personal values and attributes such as honesty, empathy, loyalty, responsibility, and respect for others

Excellence and Equity

Student Trust

Parent Trust

Confidence and Creativity

Low (0 to 5)
 Mid (>5 to 8)
 High (>8 to 10)
