Term 2 2023

QT Academy

Example Public School

The QT Pulse: School Health Longitudinal Survey is a tool for schools to reflect on school climate for the purposes of creating positive change.

Your Continuing Report is designed to:

- Describe **trends across time** in your **school climate**

Information within this report should be treated as sensitive. This information should never be used for performance management.

This free QT Pulse report contains graphs for five measures, which are made up of one or more survey questions. A sample question is provided to give an indication of the measure. All items for these measures can be found [here](#).

Measure	Example question
Effective Practice	I am a successful teacher
Burnout	I feel emotionally drained from my work
Connectedness	I feel like I belong at this school
Leadership Trust	I trust senior executive members in my school to keep their word
Shared Vision	Teachers share the same ambitions and vision for the school.

Our premium QT Pulse report contains graphs for 13 measures. You can see an example premium report [here](#).

Interpreting the data

In this report you will see two types of graphs in each section.

The first graph compares your school to an “average school” that is representative of a larger data set.

The second graph shows how your school’s responses are distributed across Low, Mid, and High categories.

Example graphs

Data collected for this report
